Re: Approval of Sakâw's 2015 Forest Management Plan - Volume I

Dear Cam:

On behalf of the Ministry of Environment, we are pleased to provide Sakâw with approval of the 2015 Forest Management Plan – Volume I for the renewal of the Prince Albert Forest Management Agreement Area Twenty-Year Forest Management Plan.

Sakâw and their partners have developed a very thorough background document in preparation for development of the remaining Twenty-Year Forest Management Plan. You are to be commended on your hard work and dedication in this planning process to meet the results-based forest management planning standards requirements.

Forest Service staff look forward to continuing work with Sakâw in the future months on the remainder of the Twenty-Year Forest Management Plan. Thank you once again for providing a document that sets the stage for sustainable forest management in the province.

Sincerely,
